

## Giyou Garden: A Blooming Garden Full of Silver and Golden Flowers in Downtown Prague

BY REDAKCE 19.7.2023

A new garden, full of silver and golden GIYOU flowers, is blooming in the Jungmann Square in downtown Prague. GIYOU GARDEN, a charming little store, opens its doors to anyone who loves original graceful presents and unique decorations.

“We’re so happy that as a result of our e-shop’s success we can now welcome customers in a brick-and-mortar store. GIYOU GARDEN allows you to admire the nature’s unparalleled beauty, as embodied by silver and golden flower arrangements and decorations, up close. We believe the new store will soon be a favourite spot both for Czech and foreign visitors,” says Radek Bláha, a co-owner of GIYOU.

### Unique flowers

The Bláha couple got the idea to make globally unique flowers of silver and gold four years ago when they lived in a beautiful historic homestead, surrounded with a wonderful garden.

Sized anywhere from 9 to 16 cm, the delicate jewellery flowers look just like real ones. They can be bundled into bouquets or given in person, bound or unbound, like fresh-cut flowers. Customers can buy a single silver flower, compose their own bouquet of several species, mix silver and golden flowers, or order a large golden bouquet for significant occasions.

The jewellery flowers combine the concept of flowers and jewellery into a work of art. They’re meant to decorate people’s homes, be put into vases, included into wedding bouquets, used instead of an engagement ring, and most importantly given, for common and extraordinary occasions. They can also be collected and over time turned into family generation bouquets

### A globally unique bouquet

Two months ago, the business created a unique golden bouquet of 118 flowers, made of pure gold. The order was placed by a Czech customer looking for an exceptional home decoration. According to available information, it’s likely the most valuable golden bouquet created in the modern world.

### Flowers in Virginia and Sean Astin’s breast pocket

In May, GIYOU silver flowers decorated the queen of Shenandoah Apple Blossom Festival, a great flower festival in Virginia, U.S., and the breast pocket of Sean Austin, a U.S. actor known, among other things, for his role as Samwise Gamgee in the Lord of the Rings trilogy.

**AND LILAC is a small family business founded by Radek Bláha and Milada Bláhová. The garden surrounding the historic homestead where the couple lives, as well as the wondrous beauty of the flowers growing there, inspired the whole venture. GIYOU flowers are authored and designed by Milada Bláhová and handmade of silver or gold, using a jewellery-making technique. To give joy, as a decoration, collector’s item, for weddings, gifting, or appreciating various moments in your life.**
